Studying CIPS

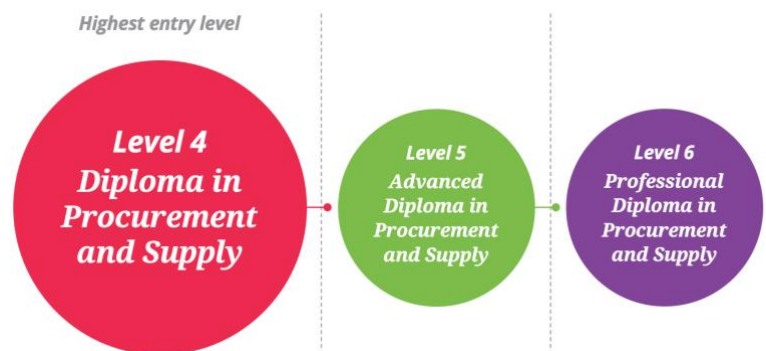

The **Chartered Institute of Procurement and Supply (CIPS)** is the world's largest professional body serving procurement and supply; a not-for-profit organisation that exists for the public good. CIPS have a global community of over 200,000 procurement and supply professionals and members in over 150 countries.

95% of those who study CIPS qualifications state the qualifications are the recognised standard for the procurement profession, acknowledged by colleagues, management and prospective employers alike. According to CIPS those with MCIPS can earn 20% more than non-qualified colleagues and 65% of employers request it (or studying towards it) when recruiting.

Achieving MCIPS requires you to complete each of the three qualifications shown, along with 30 hours of Continued Professional Development (CPD).

Note: everywheresupplychain.com does not offer the Certificate (Level 2) or Advanced Certificate (Level 3). We recommend all clients join at the highest entry point; the **Diploma**. We help and support all of our clients to ramp up their studies with the Diploma. You do not miss anything starting with Level 4.
